**COMMENTS BY STUDENTS AND PATIENTS OF ESOGETIC COLORPUNCTURE:**

“I was looking for a more spiritual approach to healing, as well as another option besides acupuncture that might be less invasive and yet effective. I discovered that Colorpuncture offers a great possibility to support my clients in their personal expansion. It helps put them in touch with the emotional and spiritual issues that are effecting their health.”

— C. Bureau, Acupuncturist

“I know of no other therapy that so quickly and completely addresses the emotional, spiritual and physical aspects of a person as Colorpuncture. It is a marvelous tool for resetting and balancing the energetic software of the individual, so that their full potential and health can blossom.”

— Dr. M. Merlin, D.O.

“Colorpuncture helped me find relief for a painful physical condition that I had been told was permanent and untreatable. It also gave me the strength and the insight to make several changes in my life which have greatly enhanced my sense of purpose and joy in life.”

— S. Keane, Psychologist

When I first heard about Colorpuncture, I was a little skeptical. Then I tried it and it blew my mind! It helped me solve a 20 year health problem for which I’d tried every other technique imaginable without success. This finally gave me the breakthrough, plus it makes me feel good!

**READ MORE ABOUT PETER MANDEL’S ESOGETIC COLORPUNCTURE IN:**

1. Website: www.colorpunctureusa.com
Esogetic Colorpuncture is an advanced system of color acu-light therapy and one of Europe’s most popular new healing modalities. Its originator, German scientist and naturopath Peter Mandel, conducted over 25 years of intensive empirical research to develop this unique system.

Esogetic Colorpuncture combines ancient esoteric or spiritual principals of the Hermetic Doctrines with the energetic wisdom and concepts of Chinese medicine and the modern scientific knowledge of light biophysics.

Colorpuncture is an advanced healing technology in which gentle, non-invasive vibrations of light are introduced to the body via acu-points on the skin.

Colorpuncture also emphasizes treating the psycho-spiritual roots of health problems as well as the physical symptoms. Specific Colorpuncture treatments gently unlock and release emotional trauma and blocked information in the unconscious which may be contributing to symptoms of illness and pain.

Recently, a world renown biophysicist had the following to say about light:

"We know today that man is essentially a being of light. And the modern science of photobiology ... is presently proving this. In terms of healing ... the implications are immense. We now know, for example, that ... light can initiate, or arrest, cascade-like reactions in the cells, and that genetic cellular damage can be virtually repaired, within hours, by faint beams of light. We are still on the threshold of fully understanding the complex relationship between light and life, but we can now say, emphatically that the function of our entire metabolism is dependent on light."

-- Dr. Fritz Albert Popp Biophysicist

"Light is life. That is not a metaphor but something that is confirmed by science. Specifically, light is present in the communication between cells in the body, and disease occurs when this light is missing. The body needs light, light is needed by the body, you cannot have health without light."

-- Peter Mandel, Originator of Esogetic Colorpuncture
